

COVID 19 Stay_Home Stay Safe

Team Leader : Harsh Chauhan

YOUR BUSINESS NAME

Problem

List 3-5 problems your company observes and wants to solve.

Problem 1

Corona was spreading through a spontaneous rate throughout the whole world.

Problem 2

Most of the populations are scared because they think there is no treatment of this disease.

Problem 3

People don't have any adequate knowledge about this pandemic.

Solution 1

Providing a complete analysis of diseases in your country from machine learning.

Solution 2

What was the confirmed positive corona cases around you with the perfect geolocation.

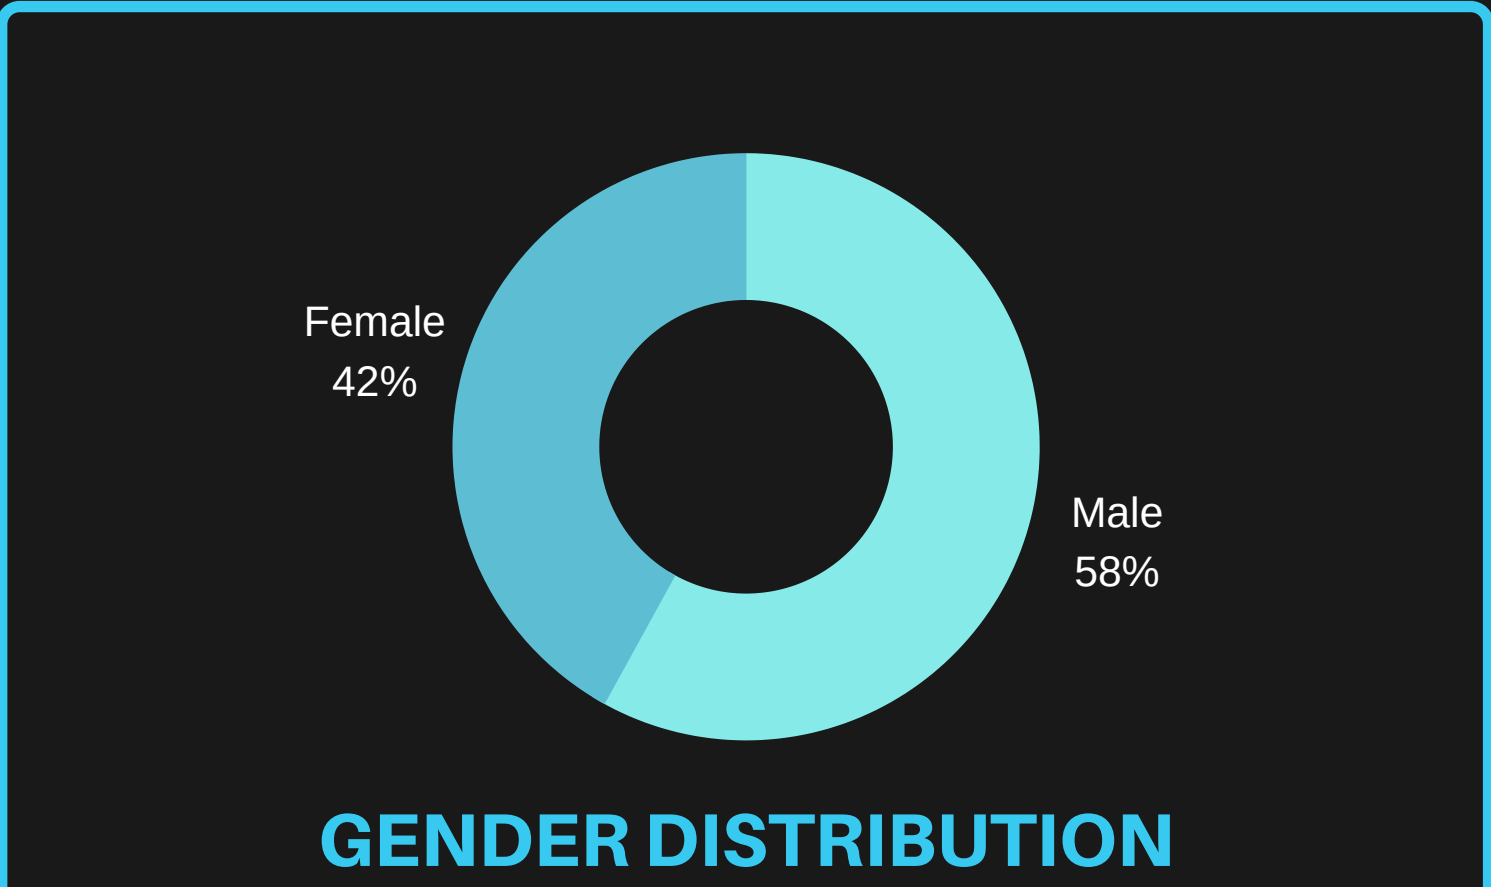

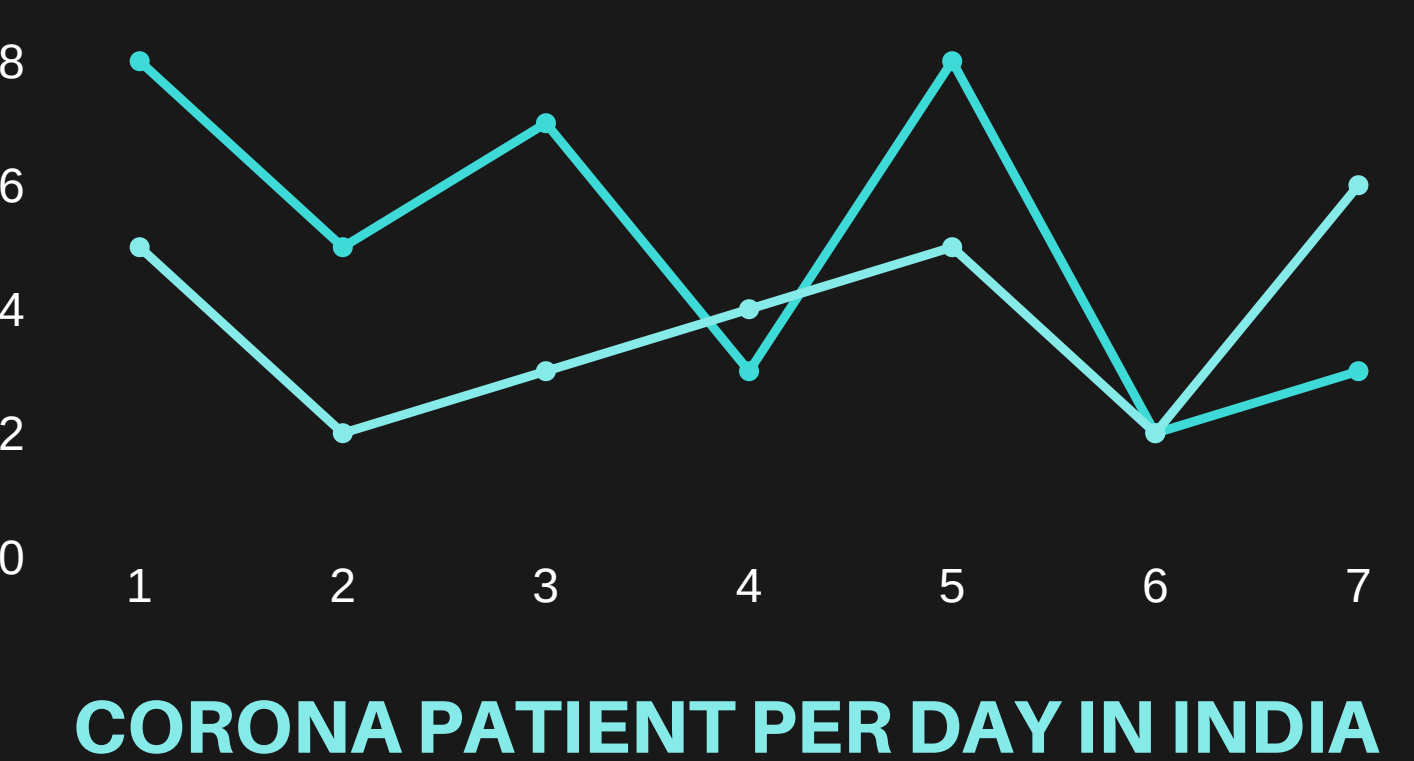

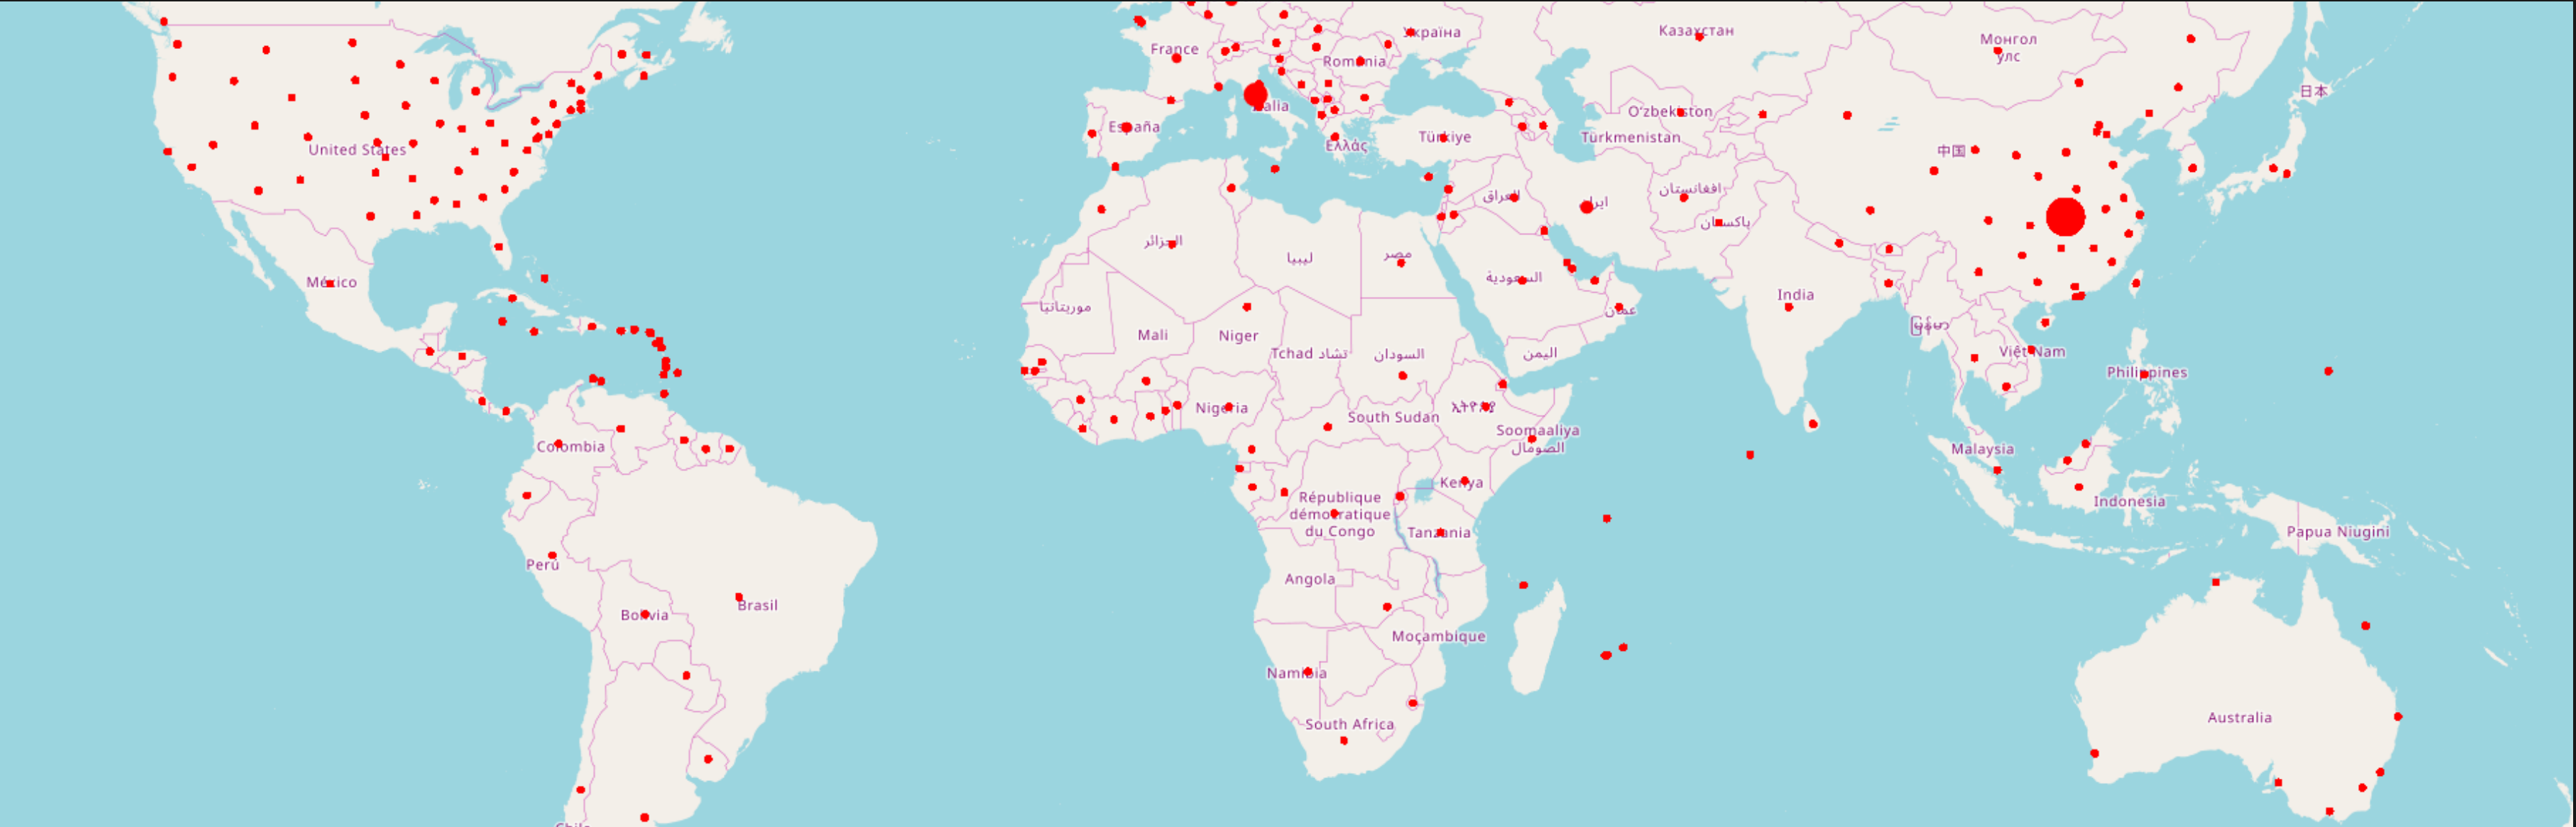

Solution 3

Providing the chance of a person that he/she is effected by corona. This will be done by it's previous day location.

The Utopia

List 3-5 problems your company observes and wants to solve.
